File Menu

New File

Select File Menu > New (Ctrl + N)

Clear all existing text and return to default format.

Open Text File

Select File Menu > Open (Ctrl + O)

Open a pre-existing text file.

Save Text File

Select File Menu > Save (Ctrl + S)

Save the text file. If a pre-existing file was opened this will save over the top. Otherwise it will give you the option of choosing a name and location to save.

Save As Text File

Select File Menu > Save As

Will give you the option of choosing a name and location to save. May be used to save over the top of a pre-existing file.

Exit/Close the program

Select File Menu > Exit (Alt + F4)

Close the program

Edit Menu

Select All Text

Select Edit Menu > Select All (Ctrl + A)

Highlight all the text in the writing space.

Clear Text File

Select Edit Menu > Clear (Ctrl + Shift + C)

Remove all text from the writing area but will keep the current format.

Format Menu

Font

Select Format Menu > Font

Change the font style and colours.

Help Menu

Support Guide

Select Help Menu > Support (F1)

Display this help file.
